Issue 15

Reclaiming the Past, Building a Circular Future.

Scientific Biomining • Legacy Waste Remediation • RDF • Resource Recovery

World Environment Day

This World Environment Day, we don't just celebrate nature — **we commit to protecting it.**

At Zigma Global Environ Solutions, we believe a cleaner planet begins with responsible action. From managing waste to creating sustainable systems, our mission is to turn today's environmental challenges into tomorrow's greener solutions. Because caring for the planet is not a choice — **it is our responsibility.**

● Sustainable Waste Management

♻️ Circular Economy Solutions

🌱 Cleaner Communities, Greener Future

Our Earth. Our Responsibility.

Not just a message — **a commitment we live by.**

Message from the Managing Director

B. Dharmaraj

Managing Director

Dear Team,

As we close another remarkable quarter, I want to begin by thanking every member of the Zigma family. What we have built together is more than a business — it is a shared mission to make our cities cleaner, our environment healthier and our communities stronger.

June was a month that captured the very spirit of who we are. From **World Environment Day** plantation drives across every site, to welcoming government delegations at our plants, to earning **GreenPro certification** — we proved, once again, that responsible growth and environmental stewardship go hand in hand.

What gives me the most pride is not the tonnage alone, but **how** it was achieved — with teamwork, discipline and an unwavering commitment to safety. Every tonne of waste we process and every site we run with care moves us closer to a truly circular economy.

Our progress this year is a direct reflection of your commitment. These are not just operational achievements — they are contributions to a national cause, and a measure of the role Zigma plays in **India's circular economy**.

Behind every number is a person who chose to go the extra mile — the operators who kept our plants running through demanding conditions, the field teams who upheld our standards at every site, and the support functions who made it all possible. This culture of ownership is our greatest strength, and it is what sets Zigma apart in the industry.

The road ahead brings new opportunities and new responsibilities. As we scale our operations, we must continue to invest in our people, strengthen our safety culture, and deepen our commitment to innovation. Sustainability is not a department at Zigma — it is the way we work, the promise we make to every community we serve, and the legacy we are building together.

As we look ahead, I urge each of you to keep raising the bar. Let us stay curious, stay safe, and stay united in our purpose. With your energy and integrity, I am confident Zigma will continue to lead the way.

Let us carry this momentum forward — **transforming waste into a cleaner, greener and better tomorrow.**

Warm Regards,

B. Dharmaraj

Managing Director

Leadership Message

Closing Q1 FY2026–27 with strength, discipline and a shared commitment to sustainable growth.

P. Sivasankarapandian

General Manager
Finance & Accounts

// Dear Team,

Successfully completing the first quarter of FY2026–27 marks another important milestone in our journey. I am delighted to share that Zigma has delivered a strong performance in both revenue and profitability during the period from April to June 2026. While the results may differ from our initial projections, they clearly demonstrate the resilience of our business and the strength of our operations.

These achievements are far more than financial results—they are a reflection of the dedication, perseverance, and teamwork of every member of the Zigma family. Every project completed, every customer served, every operational improvement, and every challenge overcome has contributed to our collective success.

As we celebrate these achievements, let us remember that success is not a destination—it is a continuous journey. Every milestone we achieve should inspire us to set higher goals, learn from our experiences, and strive for even greater excellence. Our industry is evolving rapidly, and the organizations that embrace innovation, adaptability, and continuous improvement will lead the way.

I encourage each one of you to challenge yourselves, seek better ways of working, support one another, and never stop learning. Small improvements made consistently by every individual create extraordinary results for the entire organization. Together, we have the talent, experience, and determination to achieve even greater milestones in the months and years ahead.

Our progress is driven by our shared commitment to operational excellence, customer satisfaction, financial discipline, safety, integrity, and sustainability. Whether you work at our project sites, in our offices, or in support functions, your contribution is valuable and directly impacts our success.

Thank you for your hard work, commitment, and passion. Let us continue this journey with confidence, a positive mindset, and the determination to exceed expectations. Together, we will build a stronger Zigma, create greater value for our customers and stakeholders, and contribute to a cleaner, greener, and more sustainable future.

The best is yet to come — and together, we will achieve it.

Best Regards,

P. Sivasankarapandian

General Manager – Finance & Accounts

— DEPARTMENTAL HIGHLIGHTS

Reduce, Reuse, Recover · RDF as alternative fuel

JUNE 2026 · RDF DISPATCH

78,670

Tonnes of RDF dispatched

Segregate & Shred

High-calorific fractions recovered from processed waste.

Dispatch to Plants

RDF loads sent as certified alternative fuel.

Displace Coal

Lower fossil-fuel use & net carbon savings.

— DEPARTMENTAL HIGHLIGHTS

Purchase & Supply Chain

Reliable execution, smart reuse and resilient sourcing — keeping every site supplied and running on time.

380+

Purchase Orders generated & followed up

180+

Work Orders processed on time

60

New vendors onboarded for services

Zero

New purchases — LED lights & rollers reused

KEY ACHIEVEMENTS

- ✓ **Perungudi Erection Requirements:** Successfully processed all requirements through close follow-up, ensuring timely material delivery.
- ✓ **Purchase Orders:** Generated 380+ Purchase Orders and maintained active follow-up on the respective supply chain.
- ✓ **Work Orders:** Generated and processed 180+ Work Orders for various department services on time.
- ✓ **Vendor Onboarding:** Successfully onboarded 60 New Vendors for various services at ZIGMA.

SMART REUSE

Reuse over replacement

Streamlined the service process of **LED Lights and Support Rollers** and reused them for current requirements — **eliminating the need for new purchases.**

₹218/MT

Overall PTC · ₹186 core

₹13.33 Cr

Total EM expenses · June

5.98 Lakh MT

Preprocessed · 85.79 t/hr

OVERALL PERFORMANCE

- ✓ Handled **6.11 lakh MT** inward at **₹13.33 Cr** — overall PTC ₹218/MT.
- ✓ Excluding one-time disposal (₹1.98 Cr), core PTC is **₹186/MT** — far more efficient than the headline.
- ✓ Cost mix: **diesel ₹7.82 Cr (59%)** & hire ₹5.51 Cr (41%) — diesel the dominant lever.

DIESEL · ₹7.82 Cr

HIRE · ₹5.51 Cr

SITE EXCELLENCE · PTC
KDG Package 4 — ₹141/MT

Network-leading core PTC; Makarpura close at ₹151/MT (~₹42/MT hire on 39,329 MT).

KDG Package 1 — ₹170/MT

Largest site (69,728 MT) held ₹170 despite heaviest disposal. NMCP2 ₹170, Anantapur ₹175, ATP-Guntakal ₹176.

Strong after disposal adjustment

KDG-6 257→194, Srikalahasti 247→195, Tirupati 234→202, Vizag 257→210, Guwahati 266→230.

ACTIVITY BREAKDOWN
Inward Shifting
₹19.95 best

- **Puttur ₹19.95/MT** — ~43% below benchmark, 30-min cycles & 16.9 t/trip.
- Attipattu ₹21.50 & Trichy ₹21.74 — ~38% under benchmark.
- KDG-1 highest volume: **84,263 MT @ ₹28.27**.

Inward Loading
₹10.14 best

- **Vizag ₹10.14** & KDG-1 ₹10.20 — ~35% below benchmark at 140–144 t/hr.
- Eight sites crossed **100+ t/hr**.
- ~4.5 lakh MT loaded at benchmark-or-better cost.

Inert Loading
₹11.76 best

- **KDG-1 ₹11.76/MT** at 128.59 t/hr on 58,277 MT.
- KDG-4 ₹12.22 & NMCP2 ₹13.45 under benchmark.
- Vizag, KDG-1 & NMCP2 (~1.53 lakh MT) all at/below benchmark.

RDF Loading
₹27.62 best

- **Puttur ₹27.62** at 61.23 t/hr (~41% below benchmark).
- Vizag ₹30.81 on largest RDF volume (**16,653 MT**).
- Vizag, KDG-1 & KDG-6 (~38,500 MT) all at/below benchmark.

85.79

t/hr avg

Preprocessing — 5.98 lakh MT in ~6,972 machine hours

KDG-6 led at scale (**102–108 t/hr**); KDG-1 volume champion (1.2 lakh MT+). KDG cluster ~3.11 lakh MT — over half the network. Srikalahasti best single rate — **157.15 t/hr**.

— DEPARTMENTAL HIGHLIGHTS —

Tender Department

New legacy-waste mandates across the south and cleaner, lower-cost operations at Kochi BSF.

Legacy-Waste Project Wins — legacy-waste project wins, Q1 FY27

CUMULATIVE PROJECT VOLUME

8.66 LMT

Legacy waste secured for remediation

REGIONS

AP & PY

Andhra Pradesh & Puducherry ULBs

Zigma Global Environ Solutions secured **multiple legacy-waste remediation projects across Andhra Pradesh and Puducherry** during the quarter ending June — reaffirming our leadership in sustainable waste management. The cumulative volume stands at **8.66 L MT** of legacy waste.

These projects drive the scientific remediation of dumpsites, recovery of valuable land and improved environmental conditions — the result of collective effort across our **business development, tendering, technical and operations** teams. With these orders, Zigma deepens its presence in the southern region and its contribution to India's **Swachh Bharat and circular-economy** objectives.

Dumpsite remediation

Land recovery

Southern-region growth

— OPERATIONS UPDATE —

BSF Solutions — Kochi BSF

BSF SOLUTIONS — KOCHI

Commenced **Phase 2 of the new shed at Kochi BSF**, and switched the existing dryer from diesel to **pyrolysis oil** — cutting operating costs by **nearly 50%**.

~50%

lower dryer
operating cost

— DEPARTMENTAL HIGHLIGHTS

Safety Department

Strengthening our safety culture across every site and the corporate office — protecting people, assets and the environment.

SAFETY SPOTLIGHT — JUNE 2026

- ✓ **ISO Stage 1 Audit** completed — a key milestone towards certified management systems.
- ✓ **World Environment Day** celebrated across all sites & Head Office with plantation drives.
- ✓ Monthly **Material Handling** (Manual & Mechanical) training conducted across all sites.
- ✓ **UAUC training** delivered for the surveillance team; frontline hazard reporting reinforced.
- ✓ **Safety Committee meetings** held to review performance, compliance and improvement.

SAFETY TIP — MATERIAL HANDLING

- ✓ Assess the load first — weight, size and grip points.
- ✓ Bend your knees, keep your back straight, hold the load close.
- ✓ Use mechanical aids — operate only if trained & authorised.
- ✓ Never exceed the Safe Working Load; inspect slings & hooks.

OUR GOAL REMAINS UNCHANGED

Everyone Home Safe, Every Day

Stay alert. Stay responsible. Stay safe.

MONTHLY TRAINING SNAPSHOTS · JUNE 2026

— DEPARTMENTAL HIGHLIGHTS

IT, Software, Weighbridge & Surveillance

June progress in operational monitoring, digital development, infrastructure and workplace safety.

285

Safety observations reported

266

Job cards raised • 215 closed

278

Unsafe acts detected • 235 closed

72

WB inspection checklists received

Surveillance

- › Identified and reported **285 site-wise safety observations** through continuous CCTV surveillance.
- › Raised **266 Job Cards**, of which **215** were closed through timely follow-up and corrective action.
- › Detected **278 unsafe acts & conditions**, achieving closure of **235** observations during the month.
- › Issued critical safety communications for high-risk observations, ensuring timely corrective action across operational sites.
- › Promptly identified and escalated unsafe work practices at **Guntakal**, enabling immediate rectification and compliance.
- › Detected fire and smoke incidents at **KDG Site** (fresh-waste & RDF areas) and **Nagpur D-Zone** through CCTV monitoring, enabling immediate response and preventing escalation.

Software

- › Developed the **Scrap Quotation Entry** and **Scrap Comparison Forms**, simplifying the recording, evaluation and comparison of scrap quotations.
- › Progressed development of the **Process Flow Tracker** to improve workflow visibility, responsibility tracking and operational reporting.
- › Developed the **CO₂ Tracker** to support systematic monitoring and analysis of carbon-emissions data.
- › Successfully developed and launched the new **Zigfly Website** with improved functionality, accessibility, performance and user experience.

IT Hardware

- › Supported the Billing Team by preparing and handing over required documents to the Municipality, enabling a smooth billing process.
- › Completed IT infrastructure installation at the **Sripathi** site.
- › Completed IT infrastructure restructuring at the **Kadapa** site.
- › Replaced dedicated NVR hard disks at **KDG-3 Plant-2** and **Makarpura** without data loss, ensuring uninterrupted weighbridge CCTV recording.
- › Identified and resolved the **NSC Weighbridge** conflict issue, restoring normal operations and supporting uninterrupted production.
- › Serviced and redeployed **eight laptops**, improving asset utilization and reducing IT procurement costs.

Weighbridge

- › Completed installation and stamping certification of **Visakhapatnam WB-2** with support from the IT Hardware Team.
- › Successfully completed the **Perungudi Inward Weighbridge** installation.
- › Completed stamping renewals for **Srikalahasthi, Puttur, Chittoor, Nagpur** and **Puducherry Phase 2**.
- › Completed AMC renewals for **KDG-6, KDG-3, Visakhapatnam, KDG-1, Donthali, Tirupati, Kozhikode** and **Srikalahasthi**.

Joint Achievements

- › Implemented the **Puducherry Phase IV Weighbridge Portal** — Software developed the system; Weighbridge completed inward & outward configuration, testing and operational deployment.
- › Implemented the **AI-based Bucket Count System** at Puducherry to auto-count excavator buckets into the hopper — Surveillance installed 19 BC-1 AI cameras; Software completed the implementation.
- › Strengthened weighbridge inspection compliance through coordinated Surveillance & Weighbridge monitoring — **72 June inspection checklists** received from sites across the network.

Inspired by Nature For Climate. For Our Future.

Across every site and the Head Office, Team Zigma Blue Planet marked World Environment Day with tree-plantation drives, pledges and awareness activities — because caring for the planet is not a choice, it is our responsibility.

#NowForClimate — From managing waste to building circular systems, our mission is to turn today's environmental challenges into tomorrow's greener solutions.

In the News — June 2026

Driving sustainability forward, one milestone at a time.

MORE HEADLINES THIS MONTH

KOCHI · 04 JUNE

Meghalaya ULB Team Visits BSF Plant

Zigma welcomed a team of Urban Local Bodies from Meghalaya to the BSF Plant at Brahmapuram, Kochi on 04 June 2026. The team reviewed ongoing organic-waste processing, where **Black Soldier Fly larvae technology** scientifically converts biodegradable waste into protein-rich larvae and nutrient-rich organic manure.

The visit underscored the value of decentralised, sustainable organic-waste solutions in reducing landfill dependency, promoting resource recovery, and advancing circular-economy-driven waste management.

TIRUCHIRAPPALLI · 05 JUNE

Commissioner Reviews Bio-Remediation

Zigma hosted Thiru. Veer Pratap Singh, I.A.S., Commissioner, Tiruchirappalli City Municipal Corporation, at the **Trichy Phase-3 Bio-Remediation Project** on 05 June 2026. He reviewed the site and the ongoing scientific bio-remediation of accumulated legacy waste.

The visit highlighted how scientific bio-remediation reduces the legacy-waste footprint, enables resource recovery, and supports sustainable land reclamation for cleaner urban spaces.

GreenPro Certified for Architectural Products

We are pleased to announce that Zigma Global Environ Solutions Pvt. Ltd., Coimbatore, has achieved GreenPro Certification by CII for our WPE Architectural Products.

A proud milestone in our journey towards sustainable and high-performance building solutions.

Green. Responsible. Future-ready.

Welcome to the team!

We're delighted to have you on board. Your energy and ideas will help us build a cleaner, greener tomorrow — together.

The Green Recharge Zone

Recharge your mind — eco riddles, a green word scramble, a mini crossword and a quick Sudoku.

ECO RIDDLES

1. I am thrown away as useless, yet I fire the cement kiln. What am I?
2. I have no wings but I clean the air; the more of me you plant, the better you fare. What am I?
3. Buried for years as a mountain of trash, I am mined back to land — not for gold or for cash. What process am I?
4. I fall from the sky but I'm caught and stored; use me wisely and droughts are ignored. What am I?
5. I turn your kitchen scraps to black gold for the soil, no factory needed, just patience and toil. What am I?
6. I catch the sun on a rooftop all day, then power your home when the meter runs the other way. What am I?

GREEN WORD SCRAMBLE

Unscramble each clue into a sustainability term:

CYRECLE

7 letters

ABONRC

6 letters

POCTMOS

7 letters

ALRSO

5 letters

STOPMOC

7 letters

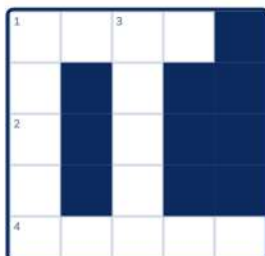

WERENABEL

9 letters

DLAFLIN

7 letters

ECO CROSSWORD

ACROSS

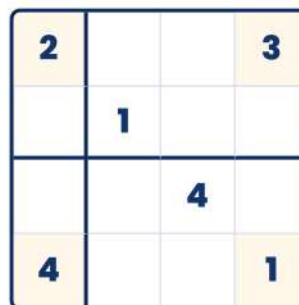

1. Eco colour of our planet (5)
4. Panels that harvest sunlight (5)

DOWN

1. Lawn cover you mow (5)
2. Waste turned to alt-fuel (abbr., 3)
3. What we do to paper & plastic (7)*

MINI SUDOKU

Fill the 4x4 grid so each row, column and 2x2 box contains 1–4.

Tip: start with the row that already has three numbers.

DID YOU KNOW?

- ▶ Recycling one tonne of paper saves about **17 trees** and 26,000 litres of water.
- ▶ A single tree can absorb roughly **22 kg of CO₂** a year.
- ▶ Composting can divert up to **30%** of household waste from landfill.
- ▶ RDF from waste can replace a share of **coal** in cement kilns — cutting fossil-fuel use.

✓ ECO TRUE OR FALSE

Mark each statement **T** or **F**:

1. Glass can be recycled endlessly without losing quality. **T/F**
2. Plastic takes only a few months to decompose. **T/F**
3. Bio-mining recovers land from old dumpsites. **T/F**
4. Switching a dryer to pyrolysis oil raised our costs. **T/F**
