Director's Leadership Message

Mr.B.Dharmaraj

Dear Team,

September marked an inspiring chapter of achievement, teamwork, and operational discipline for Zigma. Our teams across clusters demonstrated remarkable focus, achieving consistent growth in efficiency and productivity. The successful completion of multiple milestones in the AP Cluster and the strong coordination between Purchase, HR, Earthmovers, and IT teams have set a benchmark for operational excellence.

With an 75% year-on-year efficiency improvement, we not only exceeded our internal performance metrics but also strengthened our foundation for future scalability. The rollout of digital modules, zero pending indents, and the seamless ERP updates reflected our growing commitment toward data-driven operations.

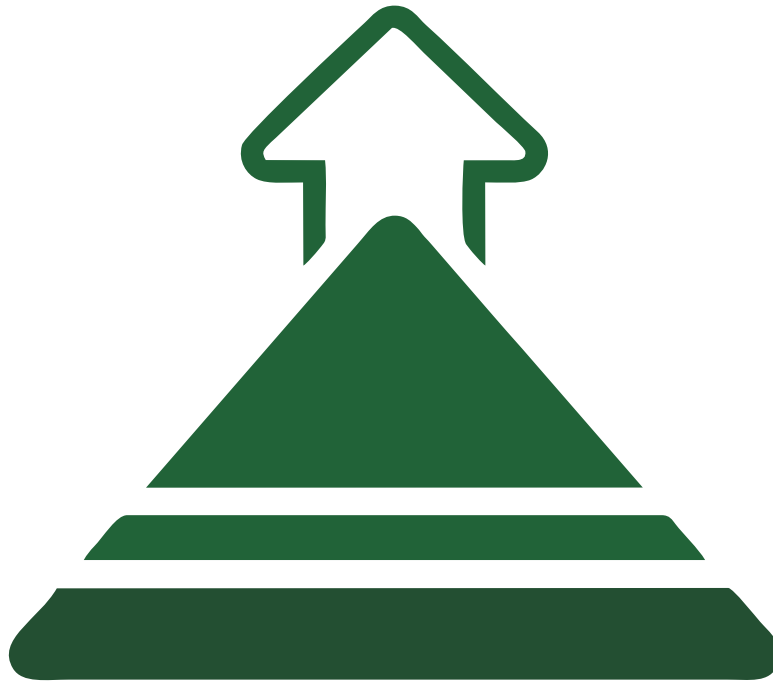

On the sustainability front, Zigma's operations contributed significantly to carbon mitigation, demonstrating how environmental responsibility and business performance can move hand in hand. Recognition through Best Site Awards and Excellence Awards stands as a testimony to the dedication and perseverance of our workforce.

As we move forward, let us continue to uphold Zigma's core values—Innovation, Integrity, and Impact—and push boundaries to make waste management more sustainable, efficient, and future-ready. Together, we are not just achieving targets; we are shaping a cleaner and smarter tomorrow.

SAFETY DEPARTMENT

Key Achievements

- ☆ September was another strong month for safety across our bio-mining sites. We recorded just one Lost Time Injury (LTI)—a reminder that every safe choice we make contributes to a safer workplace for everyone. This month's focus on Emergency Preparedness encouraged teams to take part in toolbox talks and mock drills, sharpening our readiness for any unexpected event. Knowing evacuation routes, alarm signals, and who to contact during an emergency makes all the difference. Let's keep up the teamwork and aim for a completely incident-free October!

Safety Tip of the Month

Start Each Shift Strong!

Along with our regular Toolbox Talks (TBTs), the Plant Manager will begin conducting short pep talks focused on high-risk activities such as lifting and shifting, maintenance work, and other critical tasks. These sessions will provide motivation, reinforce key safety messages, and ensure everyone approaches these activities with the right mind set.

**Our goal remains clear: Everyone home safe, every day.
Stay alert. Stay safe.**
