FEBRUARY 2026

Issue 11

MESSAGE FROM THE DIRECTOR

Dear Team,

As we conclude February 2026, I would like to thank each one of you for your continued commitment and contribution to our growth journey.

This month reflects strong progress across the organization, with notable improvements in operational performance, efficiency, and execution. Our focus on biomining, RDF utilization, and digital integration continues to strengthen our capabilities and position us for sustainable growth.

Our contributions to sustainable waste management and carbon reduction reaffirm our purpose and responsibility towards the environment and society.

As we move forward, let us stay focused, consistent, and committed to excellence. Together, we will continue to achieve greater milestones.

Thank you for your dedication and support.

Warm regards,

B. Dharmaraj

Company Performance Overview

We are delighted to share that our company has achieved a 75% Year-on-Year Growth, reflecting significant improvements in efficiency and overall performance.

This milestone highlights the dedication of our team and our continued commitment to driving excellence.

Departmental Highlights

RRR Department

Key Achievements

- ★ Achieved the highest-ever monthly revenue from RDF dispatch, setting a new performance benchmark.
- ★ Successfully dispatched 36,556 tons of Shredded RDF from KDG, marking a significant operational milestone.

HR Department

Key Achievements

- ★ Induction training sessions for new joiners will be conducted to ensure a structured onboarding experience and alignment with organizational processes and culture.
- ★ Organized a birthday celebration event, fostering employee engagement and strengthening workplace culture through team bonding and recognition.

Key Achievements

Software:-

- ☆ Hopper Stock – ERP Module: Development has been completed to enable accurate monitoring and management of hopper stock levels within the ERP system, improving operational visibility and inventory control.
- ☆ Vehicle Tracker Report – Disposal Process: The disposal tracking workflow has been successfully implemented, providing structured reporting and improved monitoring of vehicle disposal activities.
- ☆ Aggregate Production Report – Daily Reporting: A daily reporting system has been implemented to track and analyze aggregate production data, enabling better operational insights and performance monitoring.
- ☆ Invoice Verification and Rack Mapping System: A structured system has been developed to streamline invoice verification processes while integrating rack mapping for improved accuracy and traceability.
- ☆ PO Dashboard: A centralized Purchase Order dashboard has been implemented to provide real-time visibility into PO status, enabling faster tracking, monitoring, and decision-making.

Hardware:-

- ☆ WB Cameras uptime at 100%
- ☆ Plant NVR's uptime maintained at 99.50%
- ☆ IT-HW job card tickets registered 102 and closed 95

Surveillance Team:-

- ☆ A total 77 unsafe acts and unsafe conditions were identified across multiple sites and successfully closed 72 cases through timely follow-up and corrective actions.
- ☆ Introduced a weighbridge (WB) inspection process at AP sites without standard weights by comparing weights with external weighbridges to identify any variations.
- ☆ Managed operational issues including offline cameras, unsafe conditions, and WB maintenance by initiating 83 job cards and closing 74 within the same month.

Earthmovers Department

Operational Performance

Feb-26 operations remained stable with strong productivity across key activities, supported by efficient equipment utilization and controlled operational costs. Most sites operated within defined EM cost benchmarks, reflecting consistent operational management.

Operational & Cost Efficiency Highlights

- ☆ 14 sites achieved EM-PTC ≤ 250 (Cost benchmark met)
- ☆ 11 sites achieved EM-PTC ≤ 200 excluding disposal
- ☆ Strong equipment utilization and running hours performance
- ☆ Controlled diesel consumption and hire costs across major sites

MSW Loading (Benchmark ≥ 80 Tons/Hr)

- ☆ Overall Productivity: 97.89 Tons/Hr (Above benchmark)
- ☆ 9 of 11 sites achieved the benchmark level
- ☆ Top Performance: Guwahati - 146.01 Tons/Hr

Inert Loading (Benchmark ≥ 100 Tons/Hr)

- ☆ Overall Productivity: 74.12 Tons/Hr
- ☆ **Top Sites:**
 - Trichy - Ariyamangalam Phase III: 129.68 Tons/Hr
 - GDR Kavali: 121.65 Tons/Hr
 - Tirupati: 112.12 Tons/Hr
 - NMC Project-2: 108.63 Tons/Hr

RDF Loading (Benchmark ≥ 30 Tons/Hr)

- ☆ Overall Productivity: 25.08 Tons/Hr
- ☆ Best Performing Site: Guwahati - 47.04 Tons/Hr
- ☆ Benchmark Achiever: NMC Project-2 - 32.71 Tons/Hr

Pre-processing Productivity (Benchmark ≥ 80 Tons/Hr)

- ☆ Pre-processing Productivity (Benchmark ≥ 80 Tons/Hr)
- ☆ Overall Productivity: 88.90 Tons/Hr (Above benchmark)
- ☆ Top Efficiency Sites:
 - Trichy - Ariyamangalam Phase III - 116.55 Tons/Hr
 - Kodungaiyur Package-1 - 106.71 Tons/Hr
 - Kodungaiyur Package-6 - 104.62 Tons/Hr
 - Visakhapatnam - 103.22 Tons/Hr

Carbon Mitigation by Processing Legacy Waste

Zigma has mitigated **3,50,239.04 tons (0.35 million MT)** of CO₂ emissions by processing **5,05,760.34 MT (0.68 million MT)** of legacy waste January 2026.

Carbon Sequestered by

3,51,310 acres
of US forests
in one year

GHG Emissions avoided by

105 wind turbines
running
for a year

Carbon Mitigation By Using RDF as alternative Fuel In Cement Plants

Zigma has saved **13,822.19 tons (0.01 million MT)** of CO₂ emissions by dispatching **82,274.95 MT (0.08 million MT)** of RDF during January 2026.

Carbon Sequestered by

13,864 acres
of US forests
in one year

GHG Emissions avoided by

4.1 wind
turbines
running
for a year

Safety Department

In February 2026, our teams continued to champion safety across all Bio-mining sites and the corporate office. During the month, we recorded one Lost Time Injury (LTI). Immediate Corrective and Preventive Actions (CAPA) were implemented, turning this incident into an opportunity for learning and improvement. Every team member's vigilance, care, and collaboration contribute to making our workplace safer each day because safety is a responsibility we share, together.

Safety Spotlight – February 2026

- ☆ Excellent engagement in UAUC Reporting and Closing Training across all sites.
- ☆ Office staff engaged actively in Office Safety – Do's and Don'ts Training
- ☆ Safety Committee and ESG Steering Committee meetings successfully conducted, promoting safety awareness and continuous improvement

This spotlight highlights our collective commitment to learning, improving, and keeping everyone safe every day.

Safety Tip of the Month – Prevent Incidents Before They Happen

- ☆ Follow HIRA and Standard Operating Procedures (SOPs)
- ☆ Implement Engineering Controls
- ☆ Report Near-Misses and Unsafe Conditions
- ☆ Use Appropriate Personal Protective Equipment (PPE)
- ☆ Stay Vigilant – Identify hazards early and act to prevent accidents before they happen

Key Message

- ☆ Small, responsible actions every day make a big difference. Together, we ensure everyone goes home safe.
- ☆ A few minutes of planning and responsible behaviour can prevent accidents and save lives. Our goal remains unchanged: Everyone home safe, every day.

Stay alert. Stay responsible. Stay safe.

In The News of February 2026

Strategic Expansion in Kerala: Zigma Secures Kozhikode Dumpsite Remediation Project Under World Bank Initiative

A proud milestone for Zigma in Kerala's waste management journey.

We have signed the agreement for the prestigious Kozhikode Njeliyanparamba Dumpsite Remediation Project, awarded by the Kerala State Waste Management Project (KSWMP) and handed over by Project Director Dr. Divya S Iyer IAS.

This project, funded by the World Bank Group, marks Zigma's second major initiative in Kerala, following the successful remediation of the Kollam Kureepuzha dumpsite on the banks of the Ashtamudi lake.

Kerala continues to stand out as one of the most progressive states, fostering companies that genuinely work towards change with transparent systems and advanced technologies.

On behalf of Zigma and Blueplanet, we are humbled to accept this responsibility and remain committed to delivering impactful, compliance-driven solutions that set new benchmarks for sustainable landfill remediation.

Together, with the support of visionary institutions and global partners, we move closer to a cleaner, greener future.

Strengthening Urban Waste Management: Leadership Visit to Bhandewadi Biomining Site, Nagpur

We were honoured to host Ms. Vasumana Pant, IAS, Additional Municipal Commissioner (City), at the Bhandewadi Biomining Site, Nagpur on 12 February 2026.

The visit reflects a shared commitment to advancing scientific legacy waste remediation, with continued focus on compliant and technology-driven biomining operations supporting the city's waste management efforts.

We thank the city leadership for their continued support and engagement.

Driving National Impact: Zigma Contributes to IIT Madras Workshop on LCA-Based Sustainable Waste Management

Zigma contributed to the Stakeholder Workshop on Sustainable Waste Management Framework for India through Life Cycle Assessment, held on 16 February 2026 at IIT Madras, Chennai.

Our Co-Founder and Director, Mr. Nagesh Prabhu Chinivarth, participated as a speaker alongside experts from academia, government, and industry to support the development of an India-specific LCA framework and GHG Calculator App for evidence-based municipal solid waste management.

During the workshop, he shared industry perspectives on scientific legacy waste remediation, the role of biomining in resource recovery, and the importance of data-driven approaches in strengthening sustainable waste management systems.

We're pleased to contribute to this national initiative and to engage with stakeholders advancing sustainable waste management in India.

Enabling Research-Industry Synergy: Expert Delegation Visit to Kodungaiyur Biomining Site

Zigma had the privilege of hosting a distinguished delegation of experts from IIT Madras, IIT Guwahati, IISc Bangalore, IIT BHU, and Saahas NGO at the Kodungaiyur Biomining Site on 17 February 2026

The visit provided an opportunity for academicians, researchers, and industry representatives to review ongoing biomining operations and engage in technical discussions on scientific legacy waste remediation, greenhouse gas estimation, resource recovery, and performance monitoring of large-scale municipal solid waste projects.

Technical site visits of this nature are instrumental in bridging research, technology validation, and field-level execution. By enabling direct observation, structured dialogue, and data exchange, they strengthen evidence-based approaches and support continuous improvement in landfill remediation practices.

Zigma remains committed to advancing scientific biomining and fostering collaborative engagement that contributes to sustainable urban waste management at scale.

FEB 2026 - Work Anniversary Milestone

S. No	Name	Designation	Years
1	Esakkiappan V	Senior Electrical Engineer	5

FEB 2026 - Award Ceremony

Induction Training Program

The induction training program for new joiners was successfully conducted on February. The session was designed to onboard employees into the organization's culture, policies, and operational processes, enabling a smooth transition and faster alignment with organizational objectives.

Road Safety

Blood Donation Support

A commendable act of humanity was demonstrated by Mr. Kannabiran S (HR Executive – Head Office), who voluntarily donated blood to support the husband of our Head Office housekeeping staff member, Mrs. Kanthamani D, during a critical surgery in Erode.

His timely assistance and willingness to help beyond professional responsibilities reflects strong compassion, social responsibility, and employee solidarity. Such meaningful actions reinforce a caring workplace culture and set a positive example across the organization.
