International Conference on Waste to Worth
Moving towards a Circular Economy through innovative 3R approaches
16-17 November | 20 Days Virtual Exhibition

DAY 1 - 16 November 2021

1000 Hrs	Virtual Platform Opens
1130 – 1230 Hrs	Inaugural Session
1245 – 1400 Hrs	Models & Best Practices for Waste Management- India & Abroad
1415 – 1545 Hrs	Plastic waste recycling, EPR and Beyond
1600 – 1730 Hrs	India E-waste landscape: last decade and future

DAY 2 - 17 November 2021

1130 – 1245 Hrs	Innovative solutions by Start-ups for waste management
1300 – 1415 Hrs	Sustainable Management of SCF/ RDF from MSW in cement kilns and waste- to- energy plants
1430– 1600 Hrs	Untapped Potential – Challenges and Opportunities in integrated waste management

International Conference on Waste to Worth
Moving towards a Circular Economy through innovative 3R approaches
16-17 November | 20 Days Virtual Exhibition

DAY 1- 16 November 2021; SESSION 1

1245 – 1400 Hrs Models & Best Practices for Waste Management- India & Abroad

Urban India generates 62 million tons (MMT) of waste annually with an average annual growth rate of 4%. Out of this, 55 MMT is municipal solid waste and 5.6 MMT is plastic waste (Source: CPCB). One of the major challenges lies to manage these wastes not only in a boost of the quantity of wastes but also in the increasing complexity of handling the wastes' streams due to the diversity and composition of the waste generated by the modern society. Therefore, it is imperative to minimize the waste going to landfills and water stream through efficient recycling, processing and scientific management methods as well.

The session would focus on existing waste management systems, models, best practices across the country and World to address the issues of management of waste in a holistic way, suggest best possible technological solutions to mitigate the solid waste problem, financial models, government supports etc

1245 – 1250 Hrs

Opening Remarks and moderated by Session Chairman

Raghu C Rajappa

Honorary Consul of Republic of Poland in Bengaluru

1250 – 1400 Hrs

(Presentation 8-10 mins)

Landfill Mining at Atladara, Vadodara; Ajithsinghnagar, Vijayawada and Vairapalayam, Erode

Nagesh Prabhu
