VOLUME TWO · YEAR ONE OF FY27

Driving Sustainability Through **Innovation.**

A new financial year, a new digital chapter — and the people who power the ground game across every site.

**Small steps,
Big impact –**
Save our planet.

World Earth Day
April 22

— FROM THE DESK OF THE MANAGING DIRECTOR

A Message from the Managing Director

Dear Team,

April marks the beginning of a new financial year and a renewed chapter in Zigma's journey. As we step into FY 2026–27, I want to take a moment to appreciate the dedication, discipline, and teamwork shown by every member of our organisation.

The momentum built during the previous year has continued with strong intent. Across our active sites, our teams have delivered consistent performance in preprocessing, RDF handling, inert management, safety compliance, and resource recovery. These achievements are not just numbers; they reflect the commitment, coordination, and operational strength of our people on the ground.

This month also reinforced our responsibility towards sustainability. Through scientific biomining, legacy waste remediation, RDF utilisation, and circular economy initiatives, we continue to create measurable environmental impact. Every tonne processed, every acre reclaimed, and every emission reduced takes us closer to our larger purpose: building cleaner cities and a more sustainable future.

As we move forward, FY27 will be a year of growth, transformation, and new opportunities. With the development of four new verticals — Machine Sales, Machine Rental, Fresh Waste Processing, and Software Sales — every department will play a vital role in shaping the next phase of Zigma's progress. This requires stronger collaboration, sharper execution, and a mindset focused on continuous improvement.

I also want to recognise the efforts of our teams across HR, Earthmovers, Safety, IT, BSF, Operations, Business Development, and all project sites. Your work behind the scenes and on the field is what keeps Zigma moving forward with confidence.

Let us continue to work with discipline, ownership, and care. Our commitment to India's circular economy remains strong, and each one of you is an important part of that mission.

Warm Regards,
B.Dharmaraj
 Managing Director

FY27 is the year we build four new verticals. Every team must rise to the next level. I believe in all of you.

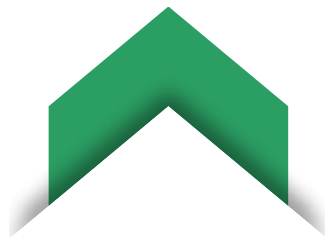

— DEPARTMENTAL HIGHLIGHTS

HR Department

Building culture, capability and care across every site we run.

Key Achievements

- Financial Year opening Pooja conducted across head office and sites, marking a positive start to FY 2026–27.
- Onboarded 17 new joiners in April across Operations, Business Development, IT, EHS and Resource Recovery.
- Conducted Induction Training for all new staff covering culture, policy, safety, and operating procedures.
- Celebrated 30 employee birthdays across HO and sites, reinforcing engagement at every location.
- Recognised 24 employees for completing 1–10 years of service through the Work Anniversary programme.
- Coordinated the Rewards & Recognition ceremony for Excellence in Operations and Functional teams.

IT Department - Hardware

IT

**Secure Print**

Enabled at Head Office for controlled, confidential document printing.

8**Laptops Serviced**

Serviced and put back into reuse — extending asset life.

20+**Cameras Serviced**

Serviced and reused across sites for reliable surveillance uptime.

DEPARTMENTAL HIGHLIGHTS

SF

Safety Department

Everyone home safe, everyday—the only acceptable benchmark.

In April 2026, safety excellence continued across all Bio-Mining sites and the corporate office. A strong commitment to safe work practices, disciplined execution, and proactive risk identification ensured consistent and reliable operations across all sites and at every level.

Safety Spotlight · April 2026

- Sustainability audit successfully completed at the KDG site.
- Monthly safety training on electrical safety conducted across all sites.
- Safety Committee meetings and ESG Steering Committee meeting conducted.
- Fire Officer Inspection completed at Trichy site for Fire NOC compliance.
- Fire NOC received for the Vizag site.
- Firefighting equipment inspected and made summer-ready.
- ILO Safety Theme effectively communicated across all sites.

Safety Tip of the Month

Prevent Incidents Before They Happen — Electrical Safety

- Always isolate power (LOTO) before any electrical work; ensure valid PTW.
- Use only ISI-certified electrical tools and equipment.
- Avoid overloading sockets and temporary connections.
- Inspect cables, plugs, and insulation regularly.
- Never attempt electrical repairs without authorisation.

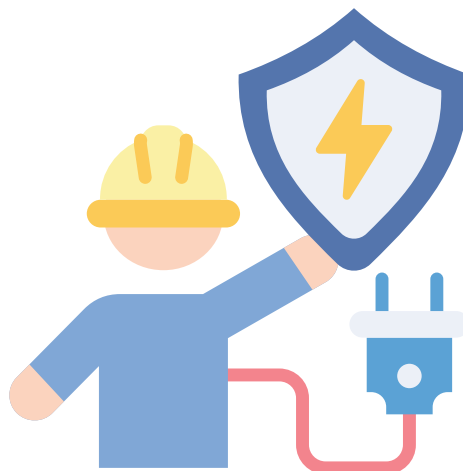

☀ Key Message

Electrical safety begins with discipline and awareness. Always ensure proper isolation, follow Lock-Out / Tag-Out procedures, and work only under a valid PTW. Use certified equipment and never bypass safety systems. A moment of carelessness can lead to serious consequences — a few minutes of caution can save lives. Stay alert. Stay responsible. Stay safe. — Safety Department

— SAFETY MONTHLY TRAINING · APRIL 2026

Safety, lived every day — at every site.

Glimpses of electrical safety training, committee meetings, ESG Steering Committee review, and the Fire NOC inspection cycle across all Bio-Mining sites and the corporate office during April.

— SUSTAINABILITY IMPACT

Carbon mitigation, at the scale of cities.

Each tonne of legacy waste processed and every tonne of RDF dispatched offsets the CO₂ that would otherwise reach the atmosphere. April's footprint, in real-world terms:

01 · Carbon mitigation by processing legacy waste

2,49,869 Tons

CO₂ emissions mitigated · April

By processing 3,60,822.73 MT of legacy waste ·
1 April – 30 April 2026

2,50,634 acres

of US forest CO₂ sequestered in
one year

75 wind turbines

running for one full year

02 · Carbon mitigation by using RDF as alternative fuel in cement plants

11,510 Tons

CO₂ emissions saved · April

By dispatching 68,513.28 MT of RDF · 1 April – 30
April 2026

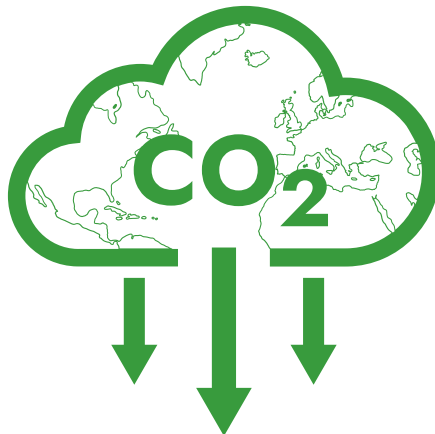

11,545 acres

of US forest CO₂ sequestered in
one year

3.4 wind turbines

running for one full year

— TRAINING & EMPLOYEE ENGAGEMENT

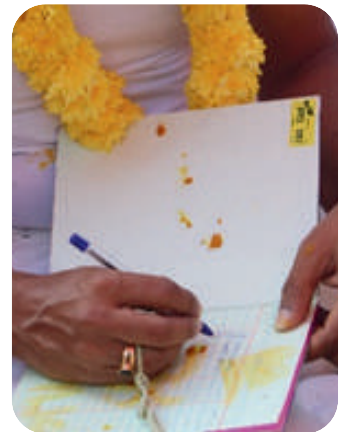

A new financial year, a renewed intent.

APRIL FINANCIAL YEAR POOJA

Marking the start of FY 2026–27 with intent.

The April Financial Year Pooja was conducted across head office and operational sites to mark a positive, intentional start to FY 2026–27. The ceremony brought leadership, operations, and support functions together — invoking blessings for the year ahead and reinforcing the cultural values that have anchored Zigma's growth over the past decade.

A new year, a new chapter — and a shared commitment to operational excellence, safety, and sustainability across every site.

STRATEGIC BUSINESS DEVELOPMENT

Four new verticals. One unified plan.

April hosted dedicated Strategic Business Development sessions led by senior leadership, focused on the FY 2026–27 vertical roadmap — Machine Sales, Machine Rental, Fresh Waste Processing, and Software Sales.

Cross-functional teams walked through commercial models, go-to-market routes, and execution priorities, ensuring alignment from boardroom to site floor.

— TRAINING & EMPLOYEE ENGAGEMENT

Onboarding. Identity. Both in the same month.

INDUCTION TRAINING PROGRAM

A structured welcome for 17 new colleagues.

April's induction training onboarded 17 new joiners across Operations, Business Development, IT, EHS, and Resource Recovery. The session covered Zigma's culture, policies, operational processes, safety expectations, and the leadership philosophy — enabling a smooth transition and faster alignment with organisational objectives.

From Athipattu and Coimbatore to Guwahati, Kodungaiyur, Kozhikode, Makarpura, Nagpur, Trichy and Visakhapatnam — the new joiners reflect the geographic spread of the work ahead

ZIGMA WEBSITE LAUNCH

A new digital front door — www.zigma.in

The refreshed corporate site went live in April, presenting Zigma's biomining, RDF, and resource-recovery work with new positioning, project galleries, and a leadership-led narrative.

Built and rolled out by the in-house IT and Brand team, the new site is a foundational asset for the four new verticals — making it easier for prospects, partners, and government stakeholders to engage with our story.

— TRAINING & EMPLOYEE ENGAGEMENT

People first. Always .

BIRTHDAY CELEBRATIONS

30 colleagues celebrated across HO and sites.

April saw birthday celebrations at the Head Office, Kodungaiyur, Coimbatore, Chittoor, Nagpur, Nellore, Puducherry, Tirumala and Kuppam — bringing teams together for cake cutting, shared meals, and a moment to recognise each person beyond the job role.

It is the small, consistent gestures that build the culture we operate by.

REWARDS & RECOGNITION

Celebrating the people who set the standard.

The April Rewards & Recognition ceremony honoured colleagues across Excellence in Operations and Functional Team categories — Fitters, Welders, Electricians, Weighbridge Operators, Project Engineers, Admin and Purchase Executives whose daily discipline keeps every site running.

Recognition was extended at site level and at the Head Office, with sites including KDG Packages 1-6, Chittoor, Trichy, Makarpura, Erode and Tiruchirappalli represented.

— BEST SITE AWARD · APRIL 2026

A NOTE FROM LEADERSHIP

"Functional teams are the spine of every site we run. Thank you for keeping the lights on, the trucks moving, and the paperwork right."

— IN THE NEWS · APRIL 2026

Vadodara Municipal Commissioner visits Makarpura Landfill Mining.

Zigma was pleased to welcome Shri Arun Mahesh Babu MS, IAS, Commissioner, Vadodara Municipal Corporation, to the Makarpura Landfill Mining Facility, Vadodara.

During the visit, the ongoing landfill mining and legacy waste remediation works at the site were highlighted, where accumulated waste is being scientifically excavated, segregated, and processed to enable resource recovery, reduction of waste footprint, and progressive land reclamation.

We thank the Vadodara Municipal Corporation for their continued support and engagement in advancing scientific and sustainable waste management practices.

— IN THE NEWS · APRIL 2026

Kozhikode, Kerala · Integrated Biomining Project

Zigma was pleased to host Dr. Binu Francis, IAS, Executive Director, Suchitwa Mission, along with the Kozhikode Corporation Secretary and the KSWMP district team during their visit to the project site.

The visit included a detailed review of ongoing integrated biomining operations, with discussions centred on site progress, process efficiency, and the continued advancement of scientific legacy waste remediation.

Zigma remains committed to supporting structured, scalable, and sustainable waste management solutions through continued collaboration and on-ground execution.

— IN THE NEWS · APRIL 2026

Green Polling Booths, Coimbatore. Built responsibly for every vote.

We are happy to contribute to the development of green polling booths in Coimbatore, bringing sustainability into a process that engages the entire community.

Built using 100% recycled materials, the furniture is developed through WPC technology, combining wood powder and post-consumer plastic waste into durable, functional infrastructure.

With 18 units installed, this initiative has already enabled over 1,000 kg of CO₂ savings, reflecting how everyday infrastructure can be reimaged through circular design.

Green Polling Booths Built Responsibly for Every Vote that shapes tomorrow

— IN THE NEWS · APRIL 2026

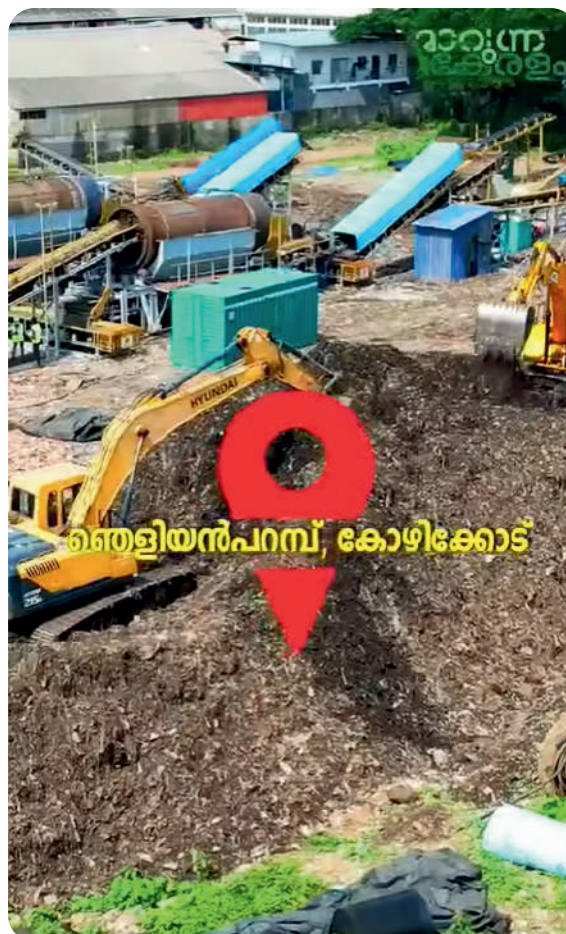

From Legacy Waste to Land Reclamation: Njeliyanparambu's Sustainable Transformation

At Njeliyanparambu, Kozhikode, decades of accumulated waste had created significant environmental and public health challenges, with over 2.30 lakh cubic meters of legacy waste lying untreated for years.

This video shared by the Kerala Solid Waste Management Project (KSWMP) highlights the ongoing scientific biomining efforts to address this legacy waste. As part of a broader initiative across 21 cities, nearly 6.50 lakh cubic meters of waste is being processed, with the aim of reclaiming over 76.6 acres of land.

Zigma is contributing to these efforts through scientific landfill mining and legacy waste remediation, enabling systematic waste processing, resource recovery, and progressive land reclamation.

We thank the KSWMP, Government of Kerala, and all associated stakeholders for their continued support and collaboration in advancing sustainable waste management.

— IN THE NEWS · APRIL 2026

India-Bhutan Exchange Program at IIT Guwahati.

Zigma was pleased to be part of the India-Bhutan Exchange Program at IIT Guwahati, where Dhanjit Das, GM – Business Development, delivered a session on "Reclaiming the Past: Scientific Solutions for India's Legacy Waste Management."

This was followed by a visit to the Boragaon site, where the Bhutanese delegation experienced Zigma's biomining operations firsthand, gaining a closer understanding of on-ground execution and technological advancements in waste processing.

The interaction reflected a strong exchange of ideas and appreciation for sustainable and scalable waste management solutions, reinforcing the importance of cross-border learning in addressing shared environmental challenges.

— IN THE NEWS · APRIL 2026

Earth Day - April 22

Across cities, waste collected over years remains at the same sites, growing steadily and occupying land.

These legacy dumpsites continue to affect surrounding environments and communities.

At Zigma, legacy waste is addressed through integrated biomining, where accumulated waste is excavated, stabilised, segregated, and processed to enable resource recovery and land reclamation.

- **17M+** tonnes processed
- **700+** acres reclaimed
- **35+** dumpsites remediated
- **8M+** tonnes of emissions reduced

Our Power. Our Planet.
